CHESS MASTERS POSTPONE GAME

Last Match of Metropolitan Series Next Saturday. Lasker vs. All-Comers Today.

Champion Reviews Tuesday's Match.

"As far as black's ninth move, the opening was identical with that of the third game, which I lost, but at that point my opponent chose to change his tactics by breaking up the center with P—K4. Instead of exchanging pawns on my tenth move I might possibly have improved my play slightly by continuing with B—K2. Then might have followed: 10 PXPBP; 11, EXP, castles; 12 castles, and white has a somewhat better outlook than in the text.

"It was simply a case of playing for a draw from the start with both of us, neither taking any chances or leaving any openings the other might take advantage of. The real points of interest in the ball away, he was unable to do so, and Kinney made two points for Yals. The Elis now lead in the race for the college championship. Over the contest.

wantage of. The real points of interest were the advance of my KR and QR pawns, the first of which, on the twenty-fourth move, was practically forced. Instead of 27 P-QR4, I might also have played P-Q5, but as I actually played the ending there was no room for any untoward mishap, and the draw was assured."

ness out of the muscles of the men, there was practically nothing to it. What the team has needed more than What the team has needed more than hitting or fielding has been team work and an understanding of inside baseball. Last season some of the exhibitions in this respect were really pitiable, but were no more than to be expected. It is practically a new team, composed of widely different mental abilities, but there has never been any serious effort to blend these into a harmonious whole, in the mechanical work of hitting and fielding Washington has not been as bad as might be supposed from the defeats it has suffered. In batting last year the Capitalities far outshone the White Sox, champions of the world, and some the Capitalities far outshone the White Sox, champions of the world, and some of the handling of difficult chances in the field was really brilliant. What was lacking was gray matter.

Not only is a medicine valuable for its ability to cure disease, but the way in which it affects the system is a very important factor. When the system is infected with the germs of disease as in Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., every particle of its recuperative strength is needed to assist in eliminating the poisons and impurities which are causing the trouble. It should not be dosed and treated with strong mineral mixtures and concoctions that further add to the burden, by disagreeably affecting the bowels, producing indigestion, or eating out the delicate linings and membranes of the stomach. The absolute vegetable purity of S. S. S. has always been one of the strongest points in its favor, and is one of the principal reasons for its being now the most widely known and universally used blood medicine on the market. It is made entirely of healing, purifying roots, herbs and barks of the forests and fields. These are selected for their well known curative properties, and are known at the same time to possess the qualities to build up and strengthen every part of the system by their fine tonic effect. Not only is S. S. S. the king of blood purifiers, but it is the one medicine that may be taken with absolute safety by young or old. We guarantee it non-injurious and offer a reward to come young or old. We guarantee it non-injurious and offer a reward \$1,000 for proof that it contains a particle of mineral in any form. S. S. S. is a safe and reliable treatment for Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and any and all diseases arising from a poisoned or impure state of the blood. It goes to the very bottom of these troubles, removes every trace of disease enriches and se troubles, removes every trace of disease, enriches and builds up the blood and permanently cures where mineral medicines fail.
